Safe Mode

LibreOffice is now running in safe mode which temporarily disables your user configuration and extensions.

You can make one or more of the following changes to your user profile to return LibreOffice to a working state.

○ Restore from backup
  ☐ Restore user configuration to the last known working state
  ☐ Restore state of installed user extensions to the last known working state
○ Configure
  ☐ Disable all user extensions
  ☐ Disable hardware acceleration (OpenGL, OpenCL, Vulkan)
○ Extensions
  ☐ Uninstall all user extensions
  ☐ Reset state of shared extensions
  ☐ Reset state of bundled extensions
◉ Reset to factory settings
  ☐ Reset settings and user interface modifications
  ☑ Reset entire user profile

3. Name and save document as a .odt, then close it and reopen it while still in Safe Mode (or close LO and relaunch using the same profile you created the gradient in and reopen the document) and while the color scheme is applied, try to find the saved color scheme under Page styles>Area>Gradient in that document, *or* **in a new document:**
